Such a lot the gods gave to me — to me, the dazed, the disappointed; the barren, the broken. And yet I am strangely content, and cling desperately to those sere memories, when my mind momentarily threatens to reach beyond to *the other*.^[note]H.P. that “we” “ourselves” are caught up in the rhythms, pulsions and patternings of non-human forces. There is no inside except as a folding of the outside; the mirror cracks, I am an other, and I always was.[note]Mark Fisher, *The Weird and the Eerie* (London: Repeater Books, 2016), 11-12.[/note]

fully prepared to take the step into the unknown. They are possessed by the eerie calm that settles whenever familiar passions can be overcome. They have disappeared, and their disappearances will leave haunting gaps, eerie intimations of the outside.[note]Ibid.[/note]

Lovecraft's stories are full of thresholds between worlds: often the egress will be a book (the dreaded *Necronomicon*), sometimes [...] it is literally a portal. [...] The centrality of doors, thresholds and portals means that the notion of *the between* is crucial to the weird.[note]Mark Fisher, *The Weird and the Eerie*, 28.[/note]

In recent years, the sixties have come to seem at once like a deep past so exotic and distant that we cannot imagine living in it, and a moment more vivid than now — a time when people really lived, when things really happened. Yet the decade haunts not because of some unrecoverable and unrepeatable confluence of factors, but because the potentials it materialised and began to democratise — the prospect of a life freed from drudgery — has to be continually suppressed.[note]Mark Fisher, *Acid Communism*. (Unpublished).[/note]

Democracy and ‘progressive democracy’ are synonymous, and indistinguishable from the expansion of the state. Whilst ‘extreme right wing’ governments have, on rare occasions, momentarily arrested this process, its reversal lies beyond the bounds of democratic possibility. Since winning elections is overwhelmingly a matter of vote buying, and society’s informational organs (education and media) are no more resistant to bribery than the electorate, a thrifty politician is simply an incompetent politician, and the democratic variant of Darwinism quickly eliminates such misfits from the gene pool. This is a reality that the left applauds, the establishment right grumpily accepts, and the libertarian right has ineffectively railed against. Increasingly, however, libertarians have ceased to care whether anyone is ‘pay[ing them] attention’ — they have been looking for something else entirely: an exit.[note]Nick Land, <http://www.thedarkenlightenment.com/the-dark-enlightenment-by-nick-land/>[/note]

Government, of whatever traditional or experimental form, is legitimated from the outside — through exit pressure — rather than internally, through responsiveness to popular agitation. The conversion of political voice into exit-orientation (for instance, revolution into secessionism), is the principal characteristic of neoreactionary strategy.[note]Nick Land, “<http://www.xenosystems.net/premises-of-neoreaction/>”. *Xenosystems*, February 3, 2014, <http://www.xenosystems.net/premises-of-neoreaction/>[/note]

The Outside is the ‘place’ of strategic advantage. To be cast out there is no cause for lamentation, in the slightest.[note] Nick Land, “[\[redacted\]](#)”. *Xenosystems*, August 1, 2014, [\[redacted\]](#) [note]

as much as Marcuse’s work was in tune with the counterculture, his analysis also forecast its ultimate failure and incorporation. A major theme of [his 1964 book] *‘One Dimensional Man’* was the neutralisation of the aesthetic challenge. Marcuse worried about the popularisation of the avant-garde, not out of elitist anxieties that the democratisation of culture would corrupt the purity of art, but because the absorption of art into the administered spaces of capitalist commerce would gloss over its incompatibility with capitalist culture. He had already seen capitalist culture convert the gangster, the beatnik and the vamp from “images of another way of life” into “freaks or types of the same life”. The same would happen to the counterculture, many of whom, poignantly, preferred to call

themselves freaks.[note]Mark Fisher, *Acid Communism* (unpublished).[/note]

When Badiou proclaims that ‘Our wound is not so recent’, we are compelled to ask: How far does this collective pronoun extend? A response to this question could be prolonged without definite limit. Everything we might want to say ultimately folds into it, ‘identity’ most obviously. Whatever meaning ‘communism’ could have belongs here, as ‘we’ reach outwards to the periphery of the universal, and thus (conceivably) to the end of philosophy.[note]Nick Land, “

French identity, radically conceived, corresponds to a failed national project. Is it not, in fact, the supreme example of collective defeat in the modern period, and thus — concretely — of humiliation by capital? It is the way the ‘alternative’ dies: locally, and unpersuasively, without dialectical engagement, dropping — neglected — into dilapidation. It can be inserted into a limited, yet not inconsiderable, series of identities making vehement claim to universality without provision of any effective criterion through which to establish it. When frustrated by the indifference of the outside, such objective pretensions tend to turn ‘fascist’ in exactly the sense Badiou employs.[note]Ibid./[note]

The ‘liberation of liberalism’ has scarcely begun. None of this is a concern for Badiou, however, or for the Islamists. It belongs to another story, and — for this is the ultimate, septically enflamed wound — as it runs forwards, ever faster, it is not remotely theirs.[note]Ibid./[note]

The growing clamour of groups seeking to take control of their own lives portends a long overdue return to a modernity that capital just can’t deliver. New forms of belonging are being discovered and invented, which will in the end show that both steampunk capital and cybergothic ISIS are archaisms, obstructions to a future that is already assembling itself.[note]Mark Fisher, “
