

2004 MN4

I shall disappear from heaven when I shall have consumed myself, and my doom will have been glorious enough! Know that various fires burn in the temple of God, and do all give Him glory: ye are the light of golden candelabra; I am the flame of sacrifice.[note]Eliphas Levi, The Ritual of Transcendental Magic, Rider & Company, London, 1896, 3.[/note]

This page is in some way still under construction.
I have some time left before 2036.
Some trouble could this timeline be. I am 80 years in 2036.
So the question is; if Apophis or a heart attack will strike me first.
Yes I know my English could be better.[note]99942 Apophis 2004 MN4, http://www.99942-apophis.com/[/note]

Apophis: Asteroid (99942) Apophis captured by the Sormano observatory in December 2004. Source: Sormano Astronomical Observatory.

I feel sure that the surface of the Moon is not perfectly smooth, free from inequalities and exactly spherical, as a large school of philosophers considers with regard to the Moon and the other heavenly bodies, but that, on the contrary, it is full of inequalities, uneven, full of hollows and protuberances, just like the surface of the Earth itself, which is varied everywhere by lofty mountains and deep valleys.[note]Galileo Galilei, *Sidereus Nuncius*, Byzantinum Press, Oklahoma City, 2004, 7.[/note]

After this confession you will take it with more tolerance if I am so bold as to claim your attention for a quite trifling and narrowly circumscribed question. [...] The second law proclaims a steady degradation of energy until all tensions that might still perform work and all visible motions in the universe would have to cease. All attempts at saving the universe from this thermal death have been unsuccessful, and to avoid raising hopes I cannot fulfil, let me say at once that I too shall here refrain from making such attempts.[note]Ludwig.Boltzmann, *Theoretical Physics and Philosophical Problems*, D. Reidel, Boston, 1974, 15-19.[/note]

> Desire could thus be said to be nothing but becoming a woman, at different levels of intensity, although of course, it is always possible to become a pious woman, to begin a history, love masculinity and accumulate [...] But reality drifts upon zero, and can be abandoned over and over again. In the lesbian depths of the unconscious, desires for/as feminizing spasms of remigration are without limit. Everything populating the desolate wastes of the unconscious is lesbian.[note]Land, *The Thirst for Annihilation*, 26.[/note]

Apophisor the Uncreator

> *In that day, the LORD will punish with his sword — his fierce, great and powerful sword — Leviathan the gliding serpent, Leviathan the coiling serpent; he will slay the monster of the sea.*[note]*Isaiah* 27:1[/note]

> *The inhabitants of the earth [...] will be astonished when they see the*

beast, because it once was, now is not, and yet will come.[note]*Revelation* 17:8[/note]

Woman plus man produces homeostasis (the equilibrium of inequality), but woman plus woman, or woman plus machine, recalibrates the productive drive, slotting it into a vector of incestuous, explosive recursion that will ultimately tear the system it emerges from to shreds, pushing it over the "brink" into something else.[note]Amy Ireland, "Black Circuit: Code for the Numbers to Come", e-flux, 2017,
.[/note]

O APEP THOU FOE OF RE, THOU SHALT DIE, DIE! MAYEST THOU PERISH, MAY THY NAME PERISH, THY TEETH BE SOFT, THY POISON SPILT; MAYEST THOU BE BLIND AND UNABLE TO SEE. FALL UPON THY FACE; BE FELLED, FELLED! Be crushed, crushed! Be annihilated, annihilated! Be slain, slain! Be cut to pieces, to pieces! Be cut up, cut up! Be severed, severed! Be slaughtered, slaughtered! Thy head shall be cut off with this knife in the presence of Re every day, for he allots thee to Aker, and he crushes thy bones.[note]R. O. Faulkner, *The Bremner-Rhind Papyrus*, The Journal of Egyptian Archaeology, 1938, Vol. 24, No. 1, 45.[/note]

In our Tradition, these “waters”, or Humidum Radicale (“radical Humidity”), have been symbolised as ▼ (downward direction, precipitation). They have also been referred to as the “earthly Venus”, as female and cosmic matrix (▼ in Hinduism is the symbol of Shakti and of the yoni), or as “Original Snake” (because of the serpentine path ≈, which is the astrological equivalent of ▼). […] And now, since you wished to learn about it, realise that the “Science of the Magi” wills this and disdains anything that is not this. To create something stable, impassive, immortal, something rescued from the “Waters” that is now living and breathing outside of them, finally free; and then, like a strong man who grasps a raging bull by the horns, slowly but relentlessly subjugating it, to dominate this cosmic nature in oneself — this is the secret of our Art, the Art of the Sun and of Power, of the “Mighty Strength of all Strengths”.[note]Evola and the UR Group, *Introduction to Magic*, 18.[/note]

Nemesis or the Black Sun

Because You love cremation grounds
I have made my heart one
so that You
Black Goddess of the Burning Grounds
can always dance there.
No desires are left, Mā, on the pyre

for the fire burns in my heart,
and I have covered everything with its ash
to prepare for Your coming.[note]R. F. McDermott, *Singing to the Goddess: Poems to Kālī and Umā from Bengal*, Oxford University Press, Oxford, 2001, 75.[/note]

A model in which the 26-Myr mass extinction cycle of Raup and Sepkoski (1984) is associated with the orbital period of a solar companion star is investigated. The required semi-major axis is about 88,000 A.U., or 1.4 light years. Its highly eccentric orbit (e greater than about 0.9) periodically brings the companion into the dense inner region of the comet cloud where it perturbs the orbits of large numbers of comets, initiating an intense comet shower in the solar system which results in several terrestrial impacts of a period of 100,000 to a million years. The companion probably has a mass in the black dwarf range of 0.0002 to 0.07 solar masses, depending on its eccentricity and the density distribution of comets in the inner cloud, and is potentially observable in the infrared.[note]D. P. Whitmire, A. A. Jackson, “Are periodic mass extinctions driven by a distant solar companion?”, Nature, 1984, Vol. 308, 713–5[/note]

Nibiru or the Great City of Babylon

The great planet:
At his appearance: Dark red.
The heaven he divides in half
as it stands as Nibiru.[note]Zecharia Sitchin, *The Twelfth Planet*, Harper, New York, 1976, 242.[/note]

What is the terrible ruby star
that burns down the crimson night?
What is the beauty that flames so bright
athwart the awful dawn?
She has taken flesh, she is come to judge
the thrones ye rule upon.
Quail ye kings for an end is come
in the birth of BABALON.[note]Jack Parsons, *The Book of Babalon*, 1946, https://hermetic.com/parsons/the-book-of-babalon.[/note]

There was no premeditated “seeding”; instead, there was a celestial collision. A life-bearing planet, the Twelfth Planet and its satellites, collided with Tiamat and split it in two, “creating” Earth out of its half. During that collision the life-bearing soil and air of the Twelfth Planet “seeded” Earth, giving it the biological and complex early forms of life for whose early appearance there is no other explanation.[note]Sitchin, *The Twelfth Planet*,

Subject: Planet X/12th Planet Cover-Up Mechanism
Date: 1 Apr 1998 16:20:10 GMT

[…]

The panic that would ensue from a general announcement of the forthcoming cataclysms would in and of itself be deemed a disaster to avoid. Beyond the concerns of the banking industry, which would collapse due to lack of confidence in the continuing worth of many assets, and beyond the concerns of industry which requires the faithful attendance of its employees in order to function, there is concern about possible looting, suicides, mass migration of peoples, and never-ending demands that the government do something.[note]Zeta Talk, Re: Planet X/12th Planet Cover-Up Mechanism, 1998, http://www.zetatalk.com/usenet/use00561.htm.[/note]

Lift-off, then, is merely a precursor to the first serious plateau of anti-

gravity technology, which is oriented towards the more profoundly productive task of pulling things apart, in order to convert comparatively inert mass-spheres into volatile clouds of cultural substance. Assuming a fusion-phase energy infrastructure, this initial stage of off-world development culminates in the dismantling of the sun, terminating the absurdly wasteful main-sequence nuclear process, salvaging its fuel reserves, and thus making the awakened solar-system’s contribution to the techno-industrial darkening of the galaxy.[note]Nick Land, *Lure of the Void*,

Gaze into the sky, for the Future has come.
Mark our words: She is the Mother, the Devourer and the Fires that Consume the Universe.
Burn, love, and understand.
Today is the twilight of the God of Man.
